KCD ITALY 2023

TRANSPARENCY REPORT

FOREWORD

KCD Italy comes back stronger than ever

After a couple of years exclusively online, in 2023 we brought people to meet again in presence.

This edition had virtually no drop-offs: 210 attendees out of 233 tickets issued, which shows a great interest in the Cloud Native technologies in the Italian market, and a thriving loyal community.

Fabrizio Pandini

**Staff Engineer 1 @ VMware Tanzu
SIG Cluster Lifecycle tech lead,
Kubernetes contributor**

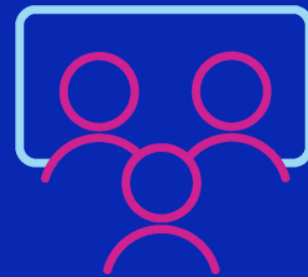

SPEAKERS & SESSIONS

12 talks took place in one day (out of more than 60 CfPs, mainly from European countries), on two separate tracks, alternating with lightning speeches for our sponsors. Talks were partly held in English and partly in Italian since the mission is to grow the local community, without losing the international grip.
